

# The season is over, what to do next....

## 1. Reflect on the season

What did you learn?  
What would you re-do?  
What would you change?

## 2. Do an equipment check

Need any additional/new items?  
Need to replace any items?  
Do they all work?

## 3. Create a 2022 plan

What are your personal coaching ambitions?  
What milestones/improvements should the players be achieving?  
What session themes should you deliver in what parts of the season?

## 4. Watch and analyse football

Before the game choose two themes/topics to observe such as;

1. What positions do the wingers get into?
2. What runs/movements create space in and around the box?

## 5. Education

Sign up for some Webinars  
Read some articles  
Explore what coaching courses you might do in 2022, ready to register when new dates are announced.

## 6. Have a break

Perhaps the most important part – relax and enjoy some quieter time. Refreshed and ready to go next season!
