

Hills Knights FC Club Player Program

2025 Season

Program Booklet

**HILLS FOOTBALL
DEVELOPMENT**

INTRODUCTION

Welcome to the Hills Football Development Club Player Program (CPP) at Hills Knights!

This season, Hills Knights is participating in the Hills Football Development Club Player Program —an initiative designed to strengthen grassroots football by providing Coach Mentoring and Player Development opportunities across all Hills Football (HFI) Member Clubs.

During the program, Hills Football will deliver a combination of Coach-the-Player and Coach-the-Coach sessions during your club’s in-house Saturday training.

- **Coach-the-Player:** Hills Football Development Coaches will lead team-based sessions to develop players in a structured, engaging environment.
- **Coach-the-Coach:** Hills Football Coach Mentors will work directly with Hills Knights Coaches and Team Leaders, offering guidance, feedback, session plans, and ongoing support.

Our goal is to create an environment where both players and coaches grow—not just for this season but for the long term. We encourage club coaches to actively engage, collaborate, and embrace this opportunity to enhance their coaching journey.

At the heart of everything we do is a simple question:
How can we create an environment where players and coaches want to come back—Next week, Next year, and for life?

Let’s work together to instill a lifelong love for football!

BALL MASTERY

Ball mastery exercises are specifically designed to improve a players' technique with the ball (both left and right foot), enhance coordination & agility and fitness, & controlled speed with the ball.

Ball Mastery comes from work with the ball to the point where it feels comfortable, like second nature, instinctive, and therefore develops the confidence of an individual on the ball.

Hills Football heavily encourages that each session within the Skill Acquisition Phase starts with an arrival activity of Ball Mastery.

The Coach to select 10 skill moves for players to complete. Each exercise should be performed twice for 30 seconds or 1 minute each.

Please note, players develop at different rates - some players will see early improvement while others may take a little longer. The key to their success is persistence and encouragement.
